## XL VII CONGRESS.

REGULAR SESSION.

### SENATE.

Washington, 16 .- Hoar introduced a bill providing that in the case of the removal, resignation, inability or death of the President and Vice President, the succession to the Presidency shall fall on members of the cabinet, beginning with the secretary of state and concluding with the secretary of the interior, in the same order as named in Washing-ton's cabinet, and excluding unconfirmed cabinet officers.

Garland said the proposition now presented was identical with that which he presented and urged last January; and he was glad to know that Senator Hoar realized its importance. He suggested the reference of the bill to the judiciary committee in which his own measure was still pending. So ordered.

Blair introduced a bill for a statue

in Washington of Benjamin Frank-

The Senate bill authorizing the Oregon Pacific Railroad Company to construct bridges across the Willamette River, Oregon, passed. The bill to reappropriate \$350,000 to pay seuthern mail contractors for services prior to the secession of

their states, was taken up. After discussion the bill went over. Bank charters extension bill was read for the first time upon the committee amendments. A proviso inserted by the Senate committee to exempt national banks from attachment and injunctions by the state court, was objected to by Vest who said he could see no reason for ex-

banking law since its creation.

Sherman said the bringing of suits against banks in state courts was not to interfere with, but merely to issue arbitrary process against a failing bank, for which the national banking law pointed out the different modes applied only to cases of bankruptcy. The House, in obedience to popular demand had adopted a principle that a national bank is not an institution foreign to the

that in nine out of ten cases, it was used as a means of defense to pre-

the sixth section, providing that all notes of existing banks now in circulation shall be returned, destroyed or cancelled, and new notes bearing different dates and descriptions substituted for them, as they come in and are redeemed. This section, as passed by the House, provided that whenever the old circulation was reduced to 5 per cent. of the capital stock of banks, banks should deposit lawful money for that 5 per cent. amount.

Allison said it was the opinion of the finance committee that the bank intending to evade this proposition could very easily do so by laying aside a portion of its circulation and

instead of three years, to deposit lawful money for whatever portion of the old notes may not be in at that

of the old notes may not be in at that time.

A Vigerous Anti-Cathelic.

Cleveland. O., 15.—The Leader is strong anti-Cathelic, and yesterday contraction of the volume of paper money. It was possible that, after authorizing banks to put into the treasury lawful money for their circulation, and having thus caused a withdrawal of legal tender notes, now part of the circulating medium of the government, thus would be confronted with a large contraction within the next six or nine months, perhaps to the amount of \$70,000,000. The committee had, in every amendment, made provisions in the bill to guard against this. The amendment was rejected—23 to \$34.

## Wool Market.

Boston, 16.-The wool market the past week has geen quiet, although the sales foot up a good average.
The transactions of the week include 2,490,000 pounds of all grades and qualities. A lot of 8,000 pounds of Valpariso carpet has been taken by manufacturers, and this leaves the market almost bare of carpet wools. New wool continues to be held at high figures in the interior, but there is a disposition on the but there is a disposition on the part of both dealers and manufacturers to hold back. Sales of Ohio highest terms of "Rosy," and that he had said he could see no reason for exemption.

Allison, in charge of the bill, explained that the existing law gave the United States courts sole jurisdiction in relation to these banks. The House had inserted a provision giving the state courts jurisdiction. The Senate committee had merely invarted in this provision a provision of the senate committee had merely invarted in this provision a provision and the courts of the bill, explained that the existing law gave and Example 1 and Example 2 and Example inserted in this provision a proviso that had existed in the national banking law since its creation.
